

Solution Labs

1

Hear Their Voice

Creating Space for Young People & families

In this workshop, we will uncover the barriers to creating safe spaces for children and families. Then learn strategies to overcome them. Through engaging in scenario-based activities, you will develop the skills to create environments where children and families feel valued and heard.

2

Voices Heard

Amplifying Youth in Decision-Making

We will explore the importance of hearing and articulating children's and families' voices, and how these voices can influence adult perspectives and inform policies. You will develop skills to support children's expressive abilities to ensure their voices are impactful.

3

Echo to Action

Engaging Audiences for Youth and Parental Advocacy

We will dive into modern approaches and interactive tools for understanding different perspectives and audiences. You will develop effective communication strategies to bridge the gap between children, their families, and professionals.

4

From Words to Action

Maximising Influence

We will examine how children's and families' views can be translated into tangible outcomes and action plans. Through problem-solving exercises, you will develop frameworks to incorporate children's rights into your professional practice.
